

## STABILO Grow + Grow ball

### SUSTAINABILITY MEETS DESIGN.

- Climate-neutral fountain pen and rollerball made from ecological materials: shaft made from 100% FSC®-certified wood; ergonomic grip made from up to 100% certified bio-based plastic
- Inspired by nature – three different wood-and-color combinations: beech / bilberry blue; oak / moss green; cherry / plum red, each wooden shaft has a distinct color and grain
- Royal-blue ink cartridge that can be replaced with standard ink cartridges, rollerball available with a blue or black lead
- Long life thanks to STABILO brand quality: excellent writing comfort and high-quality materials ensure long, sustainable use
- Advertising options: Laser engraving on wooden shaft or highly individual – personalised name embossing on wooden shaft
- Cool combinations – attractive sets comprising fountain pen and rollerball

With **QUBE FRUITS**, STABILO shows what advertising on STABILO products can look like. [www.qubefruits.com](http://www.qubefruits.com)
